

A Hot New Bombshell Enters the Villa, Suzetrigine

Current Topics in Pharmacy

Activity Announcement

Suzetrigine is a new, non-opioid therapy option in treating acute pain. Pharmacists should know that poorly controlled pain may result in increased patient morbidity, poor long-term outcomes with delay in recovery, development of chronic pain syndromes, and higher health care costs (1). Pharmacists should know how to potentially use this new therapeutic option and be aware of safety and efficacy profile.

This activity was originally recorded on 12/16/2025.

Learning Objectives

At the conclusion of this educational activity, the participant should be able to:

1. Analyze the evidence on the use of suzetrigine for acute pain including clinical efficacy and toxicity as compared to other analgesics.
2. Given a simulated case of a patient with acute pain s/p bunionectomy, determine the appropriateness of suzetrigine as an analgesic.

Speaker

Hitomi N. Iwasaki, PharmD
PGY-2 Pain Management and Palliative Care Pharmacy Resident
University of Maryland

Dr. Iwasaki, speaker for this activity, has no financial relationships to disclose. None of the planners for this activity have any financial relationships to disclose.

CE Credits: 0.5 Contact Hours

Universal Activity Number: 0025-0000-25-121-H01-P

Target Audience: Pharmacists

Activity Type: Knowledge

Activity Launch Date: 12/16/2025

Activity Expiration Date: 12/16/2026

Fee: \$15.00

Criteria for Successful Completion

Learners must complete all activity components including viewing the audiovisual presentation and completing the activity evaluation. A link to the activity evaluation will be available upon successful completion of all other course segments. Statements of CE Credit will be available electronically via CPE Monitor within sixty (60) days of completion of the activity.

Use of Trade Names: The trade names of the drugs and delivery systems in this module are for the purpose of product identification only. This activity does not imply endorsement for any commercial products discussed.

Privacy and Confidentiality: The University of Maryland School of Pharmacy is committed to protecting the privacy of our learners. All enrollees are protected under The Family Educational Rights and Privacy Act (20 U.S.C. § 1232g; 34 CFR Part 99) (FERPA).
